

WUPCOM'18 - Winter School on Ultrafast Processes in Condensed Matter 2018

Thursday, 8 March 2018

Thursday, March 8, afternoon (16:00 - 18:50)

time	[id] title	presenter
16:00	[14] Ultrafast nanoscopy of photo-activated interface polaritons in black phosphorus heterostructures	Mr MOOSHAMMER, Fabian
16:35	[1] Occupied and unoccupied electronic structure of two-dimensional oxide quasicrystal	Dr CHIANG, Cheng-Tien
17:10	Coffee break	
17:40	[9] Excitation dynamics of the CuPc / PTCDA heterosystem on Ag(111)	STALLBERG, Klaus
18:15	[17] Different electron and hole dynamics in the Rashba material BiTeI	WEINELT, Martin
