

Wilhelm und Else Heraeus Seminar #702: Otto Stern's Molecular Beam Research and its Impact on Science

Monday, 2 September 2019

Magnetic and Electric Resonance Spectroscopy: Horst Kessler, Chair (14:00 - 15:45)

time	[id] title	presenter
14:00	[8] Keynote: From Stern's beam experiments to modern biomolecular NMR spectroscopy	Prof. GRIESINGER, Christian
14:45	[9] Economic aspects of NMR: Analytic devices and medical imagers	Dr RQUARDT, Hermann
15:15	[10] Protons, Electrons - how they spin and interact to discover major aspects of Chemistry and Biomedicine	Prof. SCHWALBE, Harald
